The IQAC, Department of Chemistry and Physics of our institution organised the one-day National level online Webinar on Intellectual Property Right patent filling. The main purpose of IPR to encourage innovation and to provide incentives for innovation by granting protection to inventors that will allow them to recover research and development investments and reap the benefits of their inventions for a limited period of time.

For this Webinar we set following objective:

1. To create research awareness among researchers.
2. To impart basic knowledge about patent filing.
3. To promote the progress of Science and useful arts.
4. To encourage inventor: If a person puts efforts and resources in invention something that can be patented, he should have a provision that stops others from copying his work without his permission.
5. The role IQAC in Higher Education and research quality improvement.
