7.1.3 Describe the facilities in the Institution for the management of the following types of degradable and non-degradable waste

We do not have any MOU with private and government bodies for disposal of waste, but we manage disposal of waste at college level

Solid waste

All classrooms, academic buildings and surrounding campus are cleaned regularly by our non- teaching staff. They separate out waste and disposes off properly colored dustbins are placed at different locations for collection of solid waste. Collected waste of our campus are handed over regularly to the municipal corporation-collecting vehicle.

Liquid waste

For liquid waste management we use sedimentation and dewatering method, which separates water from solid waste. A suitable drainage system setup have been provided near science laboratories for liquid waste management. Liquid waste from toilet and washroom is let out as effluent in to proper drainage facilities to avoid stagnation.

E-Waste –

All miscellaneous E-wastes such as C.D.s, bulbs and other electronic atoms are collected from every departments and office and delivered for safe disposal.
