## 4. Socio-Economic Condition of Rehabilitated Villages in Jalgaon District of Maharashtra (Special Case Study of Waghur River Project in Jalgaon District)

**Dr. Sanjay Bhaise**

Associate Professor, Head Dept. Of Geography & Research Guide Sau. R. N. Deshmukh Arts,  
Commerce & Science College Bhadgaon Dist- Jalgaon (Maharashtra)

### **Abstract**

The process of rehabilitation of people displaced our old village or home due to construction of dams and other developmental activities is quite different from the process arising from political and natural calamities. Natural and political calamities are solved mostly by temporary relief work before the steps for permanent rehabilitation are taken. But the dam and other developmental activities rehabilitation entails a calculated well trough-out preplanned programmed. Therefore, on India rehabilitation work not completed in time and proper planned so, arising various socio-economic problems in villages.

Socio-economic condition in rehabilitated villages are intimately related to changes in size of landholding, Caste Wise land holdings, Livestock, per capita annual income different types of building materials, houses having Bathroom, Latrine and number of Rooms and House Types, which is most important for the evaluation of socio-economic condition of rehabilitated villages.

**Key Words:** - Rehabilitation, households, Livestock, land holdings

### **Introduction**

In the process of rehabilitation of villages socio-economic play, a very important role in their life. Government no doubt, give compensation in terms of land, site for home. But economic compensation may not satisfactorily counter balance the economic, social and psychological disturbances. They need rehabilitation not only economically but socially and psychologically as well. The rehabilitation processes, therefore, poses a problem not only to the government, but it brings in its wake many stresses, and strains to the affected, people well. In
